Your best new customers are the ones you already had.

Every local business has a list of people who came, liked it, and drifted away. Nobody has the time to write to each of them. We do it for you: the right message to the right customer at the right moment, from the list you already have.

What we take off your desk

Win-back

Customers who stopped coming

A short, friendly series to the people who have not been in for months. Most of them did not leave; they drifted.

> Hi Maria, it's been a while since your last class at Lotus Yoga. We'd love to see you again - shall we save you a spot this week?

Come-back reminders

Customers who are due

A note at the right moment: the next cut, the next service, the next season's stay.

> Hi James, it's been six weeks since your last cut at Maple Street. Want us to hold your usual Saturday slot?

Payment reminders

Fees that slipped

Polite, private reminders when a payment fails or a renewal is missed, before a member quietly lapses.

> Hi Alex, your November membership payment didn't go through. You can update your card at the front desk or just reply here.

Google reviews

Happy customers who never say so

A thank-you after the visit with one tap to your Google review page. Everyone is asked the same way.

> Thanks for staying with us, Priya! If you have a minute, a Google review helps other travellers find us.

How it works

1

You send us your list

An export from your booking or membership system. We show you where the button is. Your list stays yours and is used for nothing else.

2

We write, you approve

Messages in your voice, with your name on them. Nothing goes out until you have read and approved every word.

3

They go out; replies come to you

At the right moment for each customer, a few a day, never a blast. Every answer lands in your inbox, and a report every month.

Made for

Gyms and studios · Martial arts schools · Salons and spas · Hotels and guesthouses · Restaurants and cafes · Groomers and pet care · Garages and detailers

The sum is simple

> Take a studio with 300 past members. If only 5 in 100 come back, that is 15 memberships from people who already know the way to your door, without a cent spent on advertising. The same sum works for a salon's overdue clients, a hotel's past guests and a garage's customers who are due. **These are sums, not promises:** what comes back depends on your list and your offer, and your monthly report shows exactly who did.

Win-Back Sprint

Not ready for a monthly plan? One 30-day campaign to your list of past customers: we write it, send it and hand you every reply.

$399
one time

No contract. Cancel any time. Setup is included. Messages go out by e-mail, from your own name. Text messages (SMS) and WhatsApp can be added where your customers have agreed to them; carrier fees are passed on at cost.

Fair to your customers, safe for you

Only people who agreed

Messages go to your own customers who gave you their details and can hear from you. Every message says how to stop, and a stop is honoured at once.

Reviews within Google's rules

Everyone is asked the same way, nothing is offered in return, and nobody is filtered out. That keeps your reviews, and your profile, safe.

Your data stays yours

We use your list only for your messages, never share or sell it, and delete it when you ask.

Want to see it with your own customers?

Reply to our e-mail with a day and time for a 15-minute call. We look at your list together and show you the first messages we would send. No obligation, and nothing goes out without your yes.
